SUMMARY

I'm a Front-end developer with extensive experience in developing web applications using React.js and Next.js. Previously contributed to projects at Global Knowledge and currently enhancing user interfaces for large-scale projects at FEDIS. Proven track record of delivering high-quality, scalable web solutions.

EDUCATION

Bachelor of Computer Science, Misr University For Science and Technology

2019 - 2022

GPA: 3,49

EXPERIENCE

Front-end Web Developer

Apr 2022 - Jul 2022

Global Knowledge (Saudi Arabia) - Remote Position

Egypt

- Developed multiple pages and websites for government agencies such as Etqan, Nusuk, and the Ministry of Foreign Affairs using vanilla JavaScript, resulting in improved user interfaces and enhanced functionality.

Front-end Web Developer

Feb 2024 - Present

FIXED Misr

Egypt

- I am currently contributing to the Digital Egypt project using Next.js and Material-UI. My primary responsibilities include building dynamic forms through advanced form builders and developing a range of supporting services. In addition to this, I have gained substantial experience working on projects that utilized the Monaco Editor, where I deepened my understanding of code editing features and integrated them effectively into web applications.

PROJECTS

Digital Egypt

- I work in that project with next js and material ui. Tasks include building forms using form builders, working on services, and developing sections for the main portal.

Movies App

- I developed a movie news website using React.js, CSS, and Bootstrap for styling. Utilized useQuery for fetching data and Redux Toolkit for managing authentication state. Users are required to sign up or log in to access content, which includes the latest news about movies, TV shows, and actors.

Mapty

- I implemented a project using Object-Oriented JavaScript (OOP) to demonstrate OOP concepts and the use of maps.

Trouble Ticketing System

- I developed a customer service ticketing system using React.js. Users must sign up or log in to submit tickets and track their status. Contributed to the homepage, sign up and login functionalities, and user interface. Currently working on implementing the agent interface.

SKILLS

Technical Skills: HTML , CSS , SASS, Material UI ,Javascript, TypeScript, React Js, Next Js, ,Redux, JSON, Monaco Editor, Git.

Interpersonal Skills: Self-learner.

KNOWLEDGE

Tailwind css, Bootstrap,jQuery ,object oriented programming.

COURSEWORK

- Front End Web Development at Route 2021 4-Month Diploma
- React - The Complete Guide 2024 (incl. React Router and Redux) 2023
- The Complete JavaScript Course 2024: From Zero to Expert!. 2023
